# RETURNING HOME RETREAT

## Returning Home to the Way of Love

*Pause in this moment... welcome a deep breath... take another, deep down into your belly... Let the breath fill you... up into your heart... relax... truly rest... and allow yourself to receive this invitation...*

You are invited to a deeply healing and transformative 8 day retreat in a truly nurturing and relaxed environment at Narasoma Retreat in the heart of Ubud, in the tropical paradise of Bali.

You are invited to join in a very sacred circle with friends, some of whom you have never met, desiring to come together to heal, to grow and explore Love in a safe and supportive field.

Kate Macnamara, who will guide you in this sacred circle will be following a holistic pathway founded in counselling, psychology and ancient mystical wisdoms. Kate will be joined by Sandy Button and Rick Mercer who offer their skills, wisdom and support.

**Kate Macnamara, Retreat Facilitator (Counsellor, Psychotherapist and Author)**

After many years in professional practice and my own healing journey, I've discovered that I'm deeply passionate about journeying with others to heal and awaken in wholeness. I have discovered that our true self is not our fears, wounds or traumas. Inside every one of us is a deeper essence of pure potentiality. It truly is helpful to have the tools and techniques that support our healing and awakening journey home to our inner truth, peace and joy.
